- [Breastfeeding, Family Physicians Supporting \(Position Paper\)](#)

### AAP

- [FAQs: Management of Infants Born to Mothers with Suspected or confirmed COVID-19](#)

### ABM

- [Statement on Coronavirus 2019](#)

*Summary of Guidelines regarding mother-infant separation and breastfeeding with COVID or PUI patients (as of 6/9/2020):*

- *WHO, AAFP, and ABM recommend continuing standard practices of skin-to-skin and direct breastfeeding with first hour latch, utilizing appropriate mask and hand hygiene, unless mother or infant are too unwell or unstable.*
- *AAP recommends separation of mother and infant and feeding of expressed breastmilk by a healthy caregiver. Separation may be done using different rooms, or same room separated by 6 feet or curtain/barrier.*
- *CDC urges separation of mother and infant aligned with AAP, but recommends shared-decision making processes.*
- *ACOG promotes informed/educated choice utilizing shared-decision-making between providers and patients.*
